ABSTRACT

This series of six tables provides fall 1981 data on enrollments in each of the 15 community colleges in Massachusetts and for the system as a whole. Table 1 presents information on the number of freshman, sophomore, and unclassified students who made requests for admission, were qualified applicants, and were notified of admission. In table 2, day division enrollments are considered in terms of the sex and full-/part-time attendance status of freshmen, sophomores, and unclassified students and in terms of headcount and full-time equivalents. Table 3 contains data on the number of Massachusetts residents, residents of other states, foreign students, and veterans by class. Table 4 offers a breakdown of students by race, providing figures for Black American, Hispanic American, Asian American, American Indian, total minority, Caucasian, total United States citizen, and foreign student enrollments, and total headcount. Table 5 looks at enrollments by curriculum for the day division, indicating the numbers of freshmen, sophomores, and unclassified students who were enrolled in transfer, general education, and career programs. Career enrollments are further broken down by business/secretary, engineering/technology, health, and service programs. Finally, table 6 indicates the number of tuition waivers granted to the elderly for day division enrollment and the total amount of those waivers. (AYC)
